

# esp<sup>®</sup> Product Compare

2017

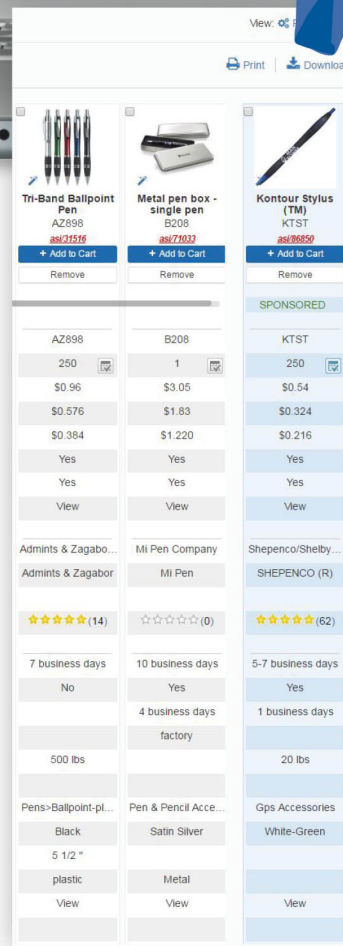

**MAKE SURE YOUR  
PRODUCT IS IN THE  
COMPARISON MIX**

## The opportunity to claim your position is here.

It's no secret that distributors comparison shop before making a purchase decision – whether they compare price, inventory, style or delivery. With **ESP Product Compare** tool, they have the opportunity to compare up to five products in a single screen. We've reserved the sixth spot for your products. The **Product Compare** ad spot places your product directly to the right of their comparison screen, so you target prospects right at the point of decision. As a category-exclusive position, you can ensure no other supplier can lay claim to it.

**Only \$265 per month.**
